**CASA
POLONIA**

Casa Polonia is a space dedicated to promoting the Polish economy, culture, and innovation during the Olympic Games. Sports, business, and diplomacy come together in one place, creating a unique platform for building international relationships.

The purpose of this brochure is to showcase 35 companies that contribute to Poland's presence at the Games – leaders in their industries, innovators, and brands with global ambitions.

FIZJOTERAPIA

JAGIEŁŁO

Fizjoterapia Paulina Jagiełło is a micro-enterprise located in the Lublin Voivodeship, providing specialized services in the field of modern physiotherapy and functional rehabilitation.

COMPANY DESCRIPTION

The practice successfully combines local medical expertise with global trends in contemporary physiotherapy. It serves as an example of how highly specialized healthcare services can become a tangible export product of the region, responding to the needs of patients and sports communities worldwide. The company's activity is based on the high qualifications of its staff and the use of advanced diagnostic and therapeutic methods in line with current medical standards. The enterprise aligns with the objectives of promoting the Lublin macro-region through the development of innovative services with internationalization potential, particularly in the areas of health, rehabilitation, and sport.

PRODUCT DESCRIPTION

Percutaneous electrolysis of soft tissues is one of the key services offered by the company - a modern, precise therapeutic method used in the treatment of chronic musculoskeletal disorders, including sports overloads and injuries. This method is characterized by high clinical effectiveness and applicability in working with physically active individuals and athletes. Due to its specialized nature and the growing demand for modern therapeutic solutions, percutaneous electrolysis has export potential - both in the form of services provided to international patients and through cooperation with sports and medical entities abroad.

Direct Astigmatic Test

HorizOn Business HUB Sp. z o.o. is a technology company developing and implementing innovative solutions in the fields of optics and optometry, combining photonics, electronics, and advanced medical software.

COMPANY DESCRIPTION

The company conducts experimental R&D activities focused on creating next-generation diagnostic devices and services and their commercialization in international markets. We specialize in transferring R&D results into clinical and service practice, with a strong emphasis on scalability, safety, and compliance with EU regulatory requirements.

PRODUCT DESCRIPTION

fotonicDAT is a screening optometric diagnostic service delivered using a diagnostic device based on the patented DAT (Direct Astigmatic Test) technology. It enables fast detection and verification of vision abnormalities, including astigmatism, as well as assessment of the correctness of spectacle lens selection for astigmatic patients under conditions close to real-life use. The solution supports prevention of selected lifestyle-related conditions through early identification of vision problems affecting patient functionality, safety, and comfort.

SQINIC JOANNA KARPIŃSKA

SQINIC
BY JOANNA KARPIŃSKA

SQINIC is a brand built on high aesthetics and conscious lifestyle hygiene, where beauty is a natural result of health rather than its substitute.

COMPANY DESCRIPTION

As a manufacturer of natural cosmetics and dietary supplements, we complement the holistic treatments offered in our aesthetic medicine clinic. We believe that youthful, firm skin comes from clean, natural, and unprocessed ingredients - free from preservatives, unnecessary chemicals, and harmful substances found in food, cosmetics, and everyday products. Healthy skin exists where the whole body is healthy, and self-care is a coherent life philosophy.

PRODUCT DESCRIPTION

Our natural cosmetics are created using pure, carefully selected premium-quality ingredients, without unnecessary enhancers, fillers, or aggressive chemicals, addressing real skin needs. Product lines based on chokeberry extract, prickly pear oil, and snail mucin are known for their regenerative, protective, and anti-aging properties. This is conscious skincare that supports natural skin processes and combines effectiveness with authenticity and high aesthetics.

ClinicHunter

Clinic Hunter Sp. z o.o. is a Polish technology-service company operating in the field of medical tourism and insurance.

COMPANY DESCRIPTION

It develops a digital platform connecting patients with foreign clinics and peri-treatment care services. The company specializes in servicing international clients, offering solutions that enhance treatment safety abroad and coordinate the medical process.

PRODUCT DESCRIPTION

As part of the mission, the company presents the Clinic Hunter digital platform together with a dedicated insurance solution for patients undergoing treatment abroad. The product supports clinics and international partners in servicing foreign patients, increasing procedural safety and the quality of pre- and post-treatment care.

INTERIOR ART DESIGN MAGDALENA LECYK-DRUTEJKA

interior art

s t u d i o

Interior Art Studio is a design studio specializing in interior and furniture design, combining aesthetics with functionality and high-quality craftsmanship.

COMPANY DESCRIPTION

We create original, timeless designs tailored to the individual needs of private and commercial clients. We focus on conscious, eco-friendly design, attention to detail, and harmonious spatial solutions.

PRODUCT DESCRIPTION

Interior Art Studio travels to Italy to establish international cooperation with furniture and finishing material manufacturers and to acquire foreign clients. We seek inspiration in Italian design, technology, and craftsmanship to develop proprietary projects. The mission also promotes Polish design and supports long-term business relationships in the European market.

Zakład Produkcyjny "GUMET" in Kraśnik has been operating continuously since 1985, specializing in the production of rubber and rubber-metal components for industrial customers.

COMPANY DESCRIPTION

The company focuses on manufacturing bearing seals and technical components used in key industrial sectors, offering high quality, competitive prices, and timely deliveries. Operations are based on long-term B2B cooperation with manufacturers in Poland and abroad.

PRODUCT DESCRIPTION

The export offering includes specialized technical seals and vacuum suction cups used in industrial automation, robotics, hydraulics, pneumatics, and machine construction. Products made from high-quality elastomers ensure durability, reliability, and tight sealing of systems operating under varied conditions. Flexible manufacturing and the ability to customize products for specific applications make the offer well suited to the needs of demanding industrial customers.

KANCELARIA RADCY PRAWNEGO ADAM SAJ

Adam Saj

KANCELARIA RADCY PRAWNEGO

Adam Saj Legal Counsel Office provides comprehensive legal services to entrepreneurs and individual clients, with particular focus on commercial disputes, contract law, and regulatory advisory.

COMPANY DESCRIPTION

The firm has experience in servicing entities operating within EU markets, including cross-border cooperation and international projects.

PRODUCT DESCRIPTION

During the mission, the Law Firm presents legal services for entrepreneurs interested in initiating or expanding business cooperation in Italy and other EU markets. The offer includes advisory services in international contracts, cross-border disputes, and compliance with EU and national regulations.

Hanesco Nieruchomości Sp. z o.o. is a leading investor in the Lublin real estate market.

COMPANY DESCRIPTION

The company carries out projects in the real estate sector and currently focuses its activities on the commercial property segment. As a result, its portfolio includes high-standard office, retail, and service spaces. The company's core competencies include comprehensive value creation cycle management for real estate assets, leasing and sale of space, as well as property administration and management.

PRODUCT DESCRIPTION

The company offers real estate and investment services that combine asset acquisition and development with effective commercialization and operational support. The offer is modular and flexible, allowing for various cooperation models and products tailored to the needs of partners in foreign markets, including Italy. Its objective is to build stable value and predictable revenue streams based on proven processes and risk management.

MAJ-MAX GROUP MAGDALENA MAJ SP. Z O.O.

MAJ-MAX Group Magdalena Maj is a company with many years of experience in the operation and maintenance of lifting equipment (scissor lifts and aerial work platforms).

COMPANY DESCRIPTION

We cooperate with the leading Italian lift manufacturer Multitel Pagliero S.p.A and its authorized service partner in Poland.

PRODUCT DESCRIPTION

Service and maintenance services for mobile aerial work platforms and lifting platforms for working at height, provided to small businesses and private clients. Timeliness and fast service delivery are the foundation for building the image of a reliable, trusted, and stable partner for local entrepreneurs.

EKSPERT KAROL CZACHOROWSKI, as a business partner of Fortum Energia S.A., operates in the field of electricity and natural gas sales.

COMPANY DESCRIPTION

The company provides extensive advisory services to entrepreneurs focused on reducing electricity and gas costs. Its clients include manufacturing companies, owners and managers of commercial properties, HoReCa businesses, and medical facilities.

PRODUCT DESCRIPTION

Advisory services in the planning of electricity and natural gas purchases, particularly for production purposes. Electricity and natural gas contracts are forward contracts, and proper management of their conclusion enables effective cost planning and optimization.

P.H.M. POLCOMM DARIUSZ KOZAK

P.H.M. POLCOMM DARIUSZ KOZAK is a Polish, independent, and dynamically developing manufacturer of cutting tools.

COMPANY DESCRIPTION

The company delivers innovative and comprehensive solutions applied across leading industrial sectors. For many years, technologically advanced Polcomm® tools for wood and metal machining have been highly regarded by specialists in numerous industries in Poland and across Europe. Strong production capabilities, a modern machine park, and system-based solutions position POLCOMM as a reliable partner for the most demanding customers.

PRODUCT DESCRIPTION

The products to be exported to a new target market will include innovative cutting tools with indexable carbide inserts for grooving and parting of metals and their alloys, featuring unique geometry, innovative cutting tools with indexable carbide inserts for high-performance metal milling, turning tool holders with replaceable carbide turning inserts for metal machining as well as solid carbide end mills.

Implantik

PRZYWRACAMY UŚMIECH

Implantik was founded 19 years ago out of a passion for combining the latest technologies with dental treatment.

COMPANY DESCRIPTION

Implantik specializes in advanced implantology, prosthetics, orthodontics, and aesthetic medicine. Based on its own research, the company has introduced and continues to introduce innovative medical products in the field of dentistry.

PRODUCT DESCRIPTION

Our company has developed a new method for manufacturing dental products (orthodontic aligners) as well as materials used for their production (films with various structures, technical parameters, and enhancements). The innovation of our technological process involves modifying the amorphous structure of the subcrystalline phase of the film, which positively affects the mechanical strength parameters and mechanics of the aligner. This results in more precise changes in tooth positioning geometry relative to the initial position throughout the entire orthodontic treatment process.

The company's history dates back to 1975, when Energopol was established as a state-owned construction enterprise to carry out major hydrotechnical and energy investments. It later transformed into a private joint-stock company and is currently a limited liability company.

COMPANY DESCRIPTION

Energopol-Lublin currently specializes in construction and engineering works, mainly in civil engineering and modern solutions for water and sewage infrastructure investments.

PRODUCT DESCRIPTION

Energopol offers the design and implementation of modern water intake systems tailored to the requirements of the Italian market. The systems include advanced filtration technologies ensuring drinking water quality and safety, intelligent water resource management using IoT solutions for real-time monitoring of qualitative and quantitative parameters, and a high level of automation. Proper selection of equipment and operating parameters guarantees energy efficiency, including the possibility of energy recovery from water flow, loss minimization, and optimized operation of the intake system.

Hydro-System Mateusz Kwiatkowski is an engineering company based in Lublin with over a decade of experience in the execution of construction and infrastructure projects.

COMPANY DESCRIPTION

The company specializes in advanced construction, installation, and engineering works.

PRODUCT DESCRIPTION

For the Italian market, it offers RBC (Rotating Biological Contactors) technology — biological wastewater treatment plants based on rotating biological media. RBC technology ensures high efficiency in the removal of BOD₅, COD, nitrogen, and phosphorus, while maintaining low energy consumption. The system features a modular and scalable design, resistance to variable hydraulic and organic load conditions, and low operational requirements. The solution is dedicated to small and medium-sized agglomerations, tourist facilities, and industrial applications, ensuring compliance with EU standards and eligibility for financing from European Union funds.

NEW TRANS SOLUTIONS SP. Z O.O

New Trans Solutions

COMPANY DESCRIPTION

New Trans Solutions Sp. z o.o. has been operating since 2013 in the Polish transport market, specializing in driver working-time settlement. It cooperates with both local and nationwide clients and is gradually expanding into international markets such as Denmark, France, and Germany. Currently, thanks to the project "Economic Marketing of the Lublin Voivodeship III", it is also entering the Italian market.

PRODUCT DESCRIPTION

The service offered by New Trans Solutions Sp. z o.o. consists of comprehensive optimization of business operating costs for companies with branches in Poland. We specialize in drivers' working time settlement, HR and payroll services, accounting, tax consulting, and legal services for transport companies. We also comprehensively represent clients during inspections by the National Labour Inspectorate, Border Guard, Chief Inspectorate of Road Transport, and Regional Road Transport Inspectorates.

Corrado – Konrad Burczyński is a company with 30 years of experience, specializing in the design and implementation of solutions in the areas of print management, document workflow, and information security.

COMPANY DESCRIPTION

The company supports clients in optimizing business processes and adapting IT environments to regulatory requirements, including the NIS2 Directive. Its operations are based on an independent system integrator approach and cooperation with renowned technology manufacturers.

PRODUCT DESCRIPTION

As part of an economic mission, Corrado presents implementation and consulting services in the field of print management and document workflow systems integrated with the client's IT infrastructure. The offered solutions ensure controlled access to information, data security, and compliance with NIS2 and GDPR requirements. The services are scalable and tailored to the needs of organizations operating in environments with increased security requirements.

MONOGO SP. Z O.O

Monogo is a technology company from Lublin specializing in digital solutions and e-commerce transformation, delivering comprehensive IT solutions for B2B and B2C clients.

COMPANY DESCRIPTION

Operating since 2011, it has completed projects for brands in Poland and abroad using modern technologies.

PRODUCT DESCRIPTION

Monogo offers advanced services for designing and implementing e-commerce platforms and digital systems, combining UX/UI design with technological implementation and operational support. As part of the mission, the company presents innovative digital solutions that help clients accelerate online sales growth and effectively use AI tools in business.

Zakład Produkcyjny Bempresa Sp. z o.o. operates in the dairy products market and specializes in the production and sale of high-quality milk powders.

COMPANY DESCRIPTION

The company's offer includes standard products such as whole milk, skimmed milk, whey, and cream, as well as economical high-quality substitutes produced exclusively from milk or milk-vegetable oil blends. It also offers highly innovative products such as hydrolyzed whey protein concentrates (WPH) and agglomerated whey protein isolates (WPI AGLO). Bempresa's goal is to deliver innovative dairy products that meet strict quality criteria. Its modern technological facilities allow the development of tailor-made formulations meeting non-standard customer requirements.

PRODUCT DESCRIPTION

Products / services offered within the mission

IMMOBILIA SP. Z O.O

IMMOBILIA®

Immobilia Sp. z o.o. is a dynamically growing development company from Lublin, delivering modern residential and commercial projects with a high architectural standard.

COMPANY DESCRIPTION

The company specializes in comprehensive investment management - from concept and preparation of the construction process to execution and commercialization. Immobilia stands out for its professionalism, transparency, and quality- and innovation-driven approach.

PRODUCT DESCRIPTION

As part of the promotional mission, the company will present development services and expert know-how in managing investment and construction processes and cooperating with foreign partners. The offer includes the implementation of residential and commercial projects in an investment-partnership model aimed at institutional and private investors. The goal of participation is to build brand recognition and develop business relationships in the Italian market.

LEDBERG ALINA ZENKOVICH

COMPANY DESCRIPTION

LEDBERG is a manufacturer of LED lighting for industrial and commercial applications, also offering intelligent lighting control systems. The company produces modern luminaires and smart lighting solutions for production halls, offices, sports facilities, and public buildings, combining high technical performance, durability, and energy efficiency with aesthetics and functionality.

PRODUCT DESCRIPTION

AXION LED is an aluminum linear LED luminaire characterized by high durability and long service life. It provides uniform light distribution with low energy consumption. The luminaire can be integrated with intelligent lighting control systems, allowing full control over lighting intensity and scheduling.

PRZEDSIĘBIORSTWO
BUDOWLANO-MONTAŻOWE "BKK" SP. Z O.O.

COMPANY DESCRIPTION

BKK Sp. z o.o. has been operating continuously since 1995 and for 31 years has specialized in the design and execution of aluminum-glass structures. We have delivered prestigious projects such as Hotel Arłamów, Unia Art Residence, and Grey Office Park in Lublin. Our roof skylights and glazing systems have been operating leak-free for decades in facilities across Poland.

PRODUCT DESCRIPTION

During the mission, we present solutions in the field of large aluminum-glass structures, winter gardens, roof skylights, and ventilated façades. We demonstrate how to deliver oversized and technically demanding structures that combine aesthetics with long-term durability and reliability.

SKILL & CHILL

SKILL AND CHILL SP. Z O.O.

SKILL & CHILL is a technology company created by a team of experienced IT specialists (over 21 years of experience), combining technical expertise with business knowledge. The company supports organizations in digitalization, process automation, and work optimization, helping them effectively adapt to the realities of the 21st century.

PRODUCT DESCRIPTION

Business Zone is a comprehensive P2P procurement platform that automates and manages the entire process from order to payment, increasing cost control and operational efficiency. Time Booster is an intelligent project and time management tool enabling cost forecasting, progress monitoring, and resource optimization to increase profitability and operational efficiency.

abiverse

ABIVERSE IT SERVICES POLAND SP. Z O.O.

COMPANY DESCRIPTION

Abiverse builds business continuity in the era of AI and digital transformation, turning cybersecurity into real support for people, decision-making, and operational stability. We view productivity as the result of order, clear rules, and a consciously designed digital work environment.

PRODUCT DESCRIPTION

Outside Defence enables companies to quickly assess their own cyber risk as well as that of their business partners. It provides a clear picture of threats in the form of a report, supports secure collaboration, and protects brand reputation in the digital ecosystem.

AUTO-WEST MARIUSZ PASTRYK

COMPANY DESCRIPTION

We are a specialized manufacturer of composite parts and molds for their production, primarily dedicated to the premium automotive sector. We create solutions that combine advanced technology, the highest-quality materials, and engineering precision. The brands we specialize in include Ferrari, Lamborghini, Aston Martin, Rolls-Royce, and McLaren.

PRODUCT DESCRIPTION

Our product consists of composite spare parts for exotic cars. These include, for example, floors, covers, wheel arches, and air intakes for vehicles such as Ferrari, Lamborghini, Aston Martin, Rolls-Royce, and McLaren.

AUTO-WEST S.C. M. i R. PASTRYK RENATA PASTRYK MARIUSZ

COMPANY DESCRIPTION

Auto-West S.C. (ECPS Group) specializes in the production of innovative carbon-fiber replacement parts for luxury premium cars such as Ferrari, Lamborghini, and McLaren. Products are manufactured using proprietary hand-crafted technology based on original 1:1 parts, ensuring the highest precision, durability, and exceptional visual effect. The offer is complemented by precision CNC-milled metal parts and unique technical solutions, including gearbox conversions.

PRODUCT DESCRIPTION

At ECPS Group, we manufacture carbon fiber replacement parts, both exterior and interior packages, service and repair luxury vehicles, sell new and used automotive parts, and perform CNC machining of metal components. We work with brands such as Ferrari, Lamborghini, Aston Martin, McLaren, and Rolls-Royce. We also specialize in converting Lamborghini Murciélago gearboxes from e-gear to manual transmission.

Marrsett

MADORO SP. Z O.O.

COMPANY DESCRIPTION

A manufactory of the future producing exclusive interiors. We specialize in furniture as well as wall claddings and tables manufactured using ecological core materials.

PRODUCT DESCRIPTION

The leading product we wish to offer is comprehensive interior equipment: furniture, wall claddings, tables, countertops, and modern solutions involving material backlighting, such as natural stone.

TERMOPROFI
MAGIC SPACER

PRZEDSIĘBIORSTWO PRODUKCYJNO
HANDLOWE OKSAN ANDRZEJ TABAŁA

COMPANY DESCRIPTION

PPH Oksan is a manufacturer of innovative, technologically advanced components for window glazing that significantly improve building energy efficiency. For over a decade, we have supported investors in reducing the costs of maintaining a comfortable indoor climate in residential and commercial buildings.

PRODUCT DESCRIPTION

TermoProfi Warm Edge Spacer are thermal insulation spacer profiles for window and door glazing, reducing energy losses by up to 22%. We manufacture exclusively energy-efficient solutions providing fast and measurable economic benefits for investors.

COMPANY DESCRIPTION

The company provides comprehensive IT project execution—from analysis through implementation to further development and software maintenance.

PRODUCT DESCRIPTION

Development of dedicated IT solutions tailored to specific client requirements. Implemented applications support process management, data flow, and integration with other systems.

PRZEDSIĘBIORSTWO PRODUKCYJNO
HANDLOWO USŁUGOWE TUDAR SP. Z O.O.

COMPANY DESCRIPTION

Our history dates back to 1989, and since 2013 we have operated under the TUDAR brand, combining many years of experience with a modern approach to furniture manufacturing.

PRODUCT DESCRIPTION

We specialize in the production of contract and custom-made furniture for hotels, restaurants, schools, and commercial spaces. Our projects can be found not only in Poland but also in Denmark, Germany, Norway, Sweden, the United Kingdom, Ukraine, and the United Arab Emirates. We also serve orders for distributors and companies operating in the interior design industry.

MANUFATURA MEBLI SP. Z O.O.

COMPANY DESCRIPTION

Manufaktura Mebli is a manufacturer and integrator of modern furniture for hotels and offices, based on licensed Hybrid Board technology. We combine R&D, precision manufacturing, and short-series customization, also delivering complete technical documentation and implementation support.

PRODUCT DESCRIPTION

We will present contract furniture with built-in power supply and lighting, with the possibility of integration with building management systems and the Internet of Things. Lightweight yet rigid structures reduce installation time and operating costs, while quick demonstration mock-ups facilitate implementation decisions.

MANUFATURA MEBLI INWESTYCJE SP. Z O.O.

COMPANY DESCRIPTION

Manufaktura Mebli Inwestycje is the commercial and implementation arm of the group. We develop exhibitions and showrooms, contract turnkey projects, coordinate installation, and provide after-sales support. We cooperate with dealers, integrators, and design offices to effectively introduce products to the market.

PRODUCT DESCRIPTION

We offer a complete “from exhibition to implementation” package: we launch showroom presentations, organize quick room mock-ups, manage contracting and installation of custom-made furniture, and provide after-sales service. Materials in Polish and English, as well as 3D model libraries, accelerate design work and purchasing decisions.

DAREX PRODUCENT KOSZUL
SP. Z O.O. SP. K.

COMPANY DESCRIPTION

Darex Shirt Manufacturer has been sewing men's shirts for 30 years. We create them for men who value prestige, elegance, and comfort. We operate in both wholesale and retail sales. Our offer includes formal, business, uniform (police and firefighter) shirts, as well as women's and children's shirts.

PRODUCT DESCRIPTION

Men's, women's, children's, and corporate shirts.

MIKAR MICHAŁ KARWATOWSKI

COMPANY DESCRIPTION

We specialize in general contracting of industrial facilities, offering comprehensive investment services from the design phase to delivery of the completed facility.

PRODUCT DESCRIPTION

We offer hot-rolled steel structures, cold-formed steel structures, and industrial hall enclosures made of sandwich panels, including installation by professional assembly teams. We also provide professional services related to the supply and installation of technologically advanced self-service car wash systems.

ENTERPRISE ACADEMY SP. Z O.O

COMPANY DESCRIPTION

Enterprise Academy Sp. z o.o. is a training and development company that designs and delivers educational programs using gamification and modern development tools.

PRODUCT DESCRIPTION

Its offer includes services and products supporting personal and business potential development, helping companies and teams achieve lasting results.

EDUCAT

EDUCAT SP. Z O.O

COMPANY DESCRIPTION

EduCat is an innovative Polish platform and a team of over 170 mentors supporting students throughout the comprehensive application process to universities abroad (including the USA, the UK, Italy, and the Netherlands).

PRODUCT DESCRIPTION

We offer personalized guidance, assistance with documentation, admissions strategy, and logistics (housing, scholarships). To date, we have helped over 1,100 students achieve their dreams of studying abroad.
